Arthur Holm, a brand from Albiral in Spain, presents its new **X Generation** of dynamic monitors at *Lightwindows*, a technology gallery in the center of Barcelona (very closet o Gaudi's *Sagrada Familia*) on May 19th.

Visitors will be able to see the dispays while enjoying music and Spanish tapas. *Lightwindows* has more than 1000 sq. meters of exposition where architects and designers can see the latest techfor meeting and conference rooms, residential and hotel applications.

Arthur Holm's New Dynamic X moving screens are built in anodised aluminium with a black edged protection and decorative glass.

Arthur Holm's AH17D216A has been selected for the Delta Awards, the 30-year old Spanish awards that recognize industrial design and manufacturing quality.
