3M launches a uniquely-package pico projector with its new **3M Streaming Projector with a built-in Roku video stick**

Capable of streaming movies and TV shows via the Roku service, the 4"x4"x2" projector is a 854x480 resolution, 1-chip DLP that outputs 60 lumens.

Using a 2.5 hour battery, the 3M Streaming Projector is capable of projecting images up to 120" diagonal and also has an HDMI input for a computer or a Blu-ray player.
