Medialine will bring to ISE their **Android LED MONITOR series** which features very low power consumption.

Leveraging the Android OS4.0 (aka Ice Cream Sandwich), the Medialine Android LED MONITOR series are available in three different housings: 26" (HM916 landscape), 32"/40"/46" (HM970 landscape) and 40"/46"/55" (HM985 can be positioned landscape or portrait).

Via LAN, the unit can be remotely controlled. Comes in HD (26"/32") or FULL HD (40"/46"/55") with resolution 1920x1080.

Audio output 2x6W (26"/32"), 2x8Watt (40"/46"/55") Comes with VESA mounting holes for professional use (such as digital signage), two USB 2.0 ports, and one HDMI port.

No additional STB needed, no cable harness. Also on the Medialine stand:

- MEDIALINE Android IP Monitor with Middleware for Digital Signage
- MEDIALINE Windows Monitor (embedded x86 PC-platform)
