Christie introduces **three new Boxer models featuring 2K resolution** with 20,000, 25,000 and 30,000 center lumens.

Now available in multiple software performance configurations, the **Christie Boxer Series** offers choices based on resolution, brightness and budget requirements. With an upgrade path to higher brightness, resolution and performance capabilities, users can pay for what they need today, with a path to the future.

“When Christie introduced the first Boxer projector we knew we had created a champion. Engineered, designed and built from the ground-up in our world-class research and development facility, the Christie Boxer is the culmination of years of experience working closely with leading rental stagers and AV professionals to understand their specific needs and expectations,” says Mike Garrido, senior product manager, Christie. “The three new models are built to the same quality and engineering standard as the multiple award winning Boxer 4K30 and include HDMI 2.0, DisplayPort 1.2, 12G-SDI and fiber input.”
