Couldn't make it to the Digital Signage Expo in Vegas this year? Check out DSE 2011 OnDemand Powered by rAVe NOW, with more than 200 new product videos .

Each video is only 1 - 2 minutes long and has the same pitch as if you walked into a manufacturer's booth and asked a rep to show you the latest products. We also have blogs and Tweets (not just ours!) from the show. It's the next best thing to walking the show floor yourself...
