

Chief Fusion: 20 New Video Wall Solutions

Written by Bob Snyder
25. 11. 2013

Chief's new Fusion Video Wall solutions make it possible to construct video walls in locations where walls aren't available.

Chief has configurations for ceiling-mounted, freestanding and bolt-down solutions.

Installer-friendly features include 6 independent adjustment knobs per display; micro-height and leveling adjustment at all column intersection points; and integrated cable management.

The solid constructions come in a variety of configurations including back-to-back and portrait versions.
