Edbak introduces the **42-65" Popout Universal Video Wall Mount**.

The **Edbak VWPOP65-P** is purpose-designed for easy and fast servicing of recessed video wall installations. The simple one touch "pop out" mechanism allows full extension of the display out of the video wall so access and servicing can be performed quickly and safely.

The Fast Release Pop-Out mechanism can be adjusted for varying display weights, ensuring safe and controlled extension. The Pop-out mechanism can be temporarily removed with security locking screw to prevent unintentional pop-outs.

Tool-less 8-point micro-adjustment is included for seamless alignment of the displays and precision dedicated spacers eliminate requirement for on-site calculations and measurements.

Additional features include the Open Frame design that allows full electrical wiring access and the integrated cable management strips that make display-to-display cabling simple.

A sequentially drilled wall plate and precision dedicated display spacers eliminate the

requirement for on-site calculations.

The 12.5 kg unit comes in black with 512x500x80mm dimensions and the Ebak VWPOP65-P fits 42-65" displays with a capacity to hold displays that weight up to 60kg.
